

FERGUS SHORT

PROFESSIONAL SUMMARY

I'm a Wellington-born Computer Science and Software Engineering graduate from the University of Otago, currently based in Wellington. I'm practical, reliable, and keen to keep learning. I enjoy building things, working in a team, and taking responsibility when a problem needs someone to own it. Since starting computing in 2023, I've become interested in a wide range of areas, especially software development, networking and security, AI, web development and cloud computing. I am also currently working towards gaining AWS & Microsoft Azure certifications.

EDUCATION

Bachelor of Science, Software Engineering and Computer Science, 11/2025
University of Otago - Dunedin, NZ
Cumulative GPA - 5.6
300 Level (Final year) GPA - 7.3

01/2022
Wellington College - Wellington, NZ

- NCEA Levels 1-3, Excellence Endorsed
- University of Otago New Frontiers Entrance Scholarship
- Year 13 Wellington College Top of NCEA General Science Award

WORK HISTORY

Game Programmer, 11/2025 to 07/2026
Splitting Point Studios

- Worked mainly on Grow a Garden and helped build, test, and maintain live-game features for a very large Roblox player base.
- Programmed in Lua across client and server systems, with a focus on clean gameplay behaviour and reliable player-facing updates.
- Used development, staging/testing, and live production workflows so changes could be checked properly before reaching players.
- Worked with community testers and live player feedback to reproduce bugs, narrow down causes, and get fixes ready for release.
- Contributed to games from a studio portfolio with more than 38 billion total plays, while learning the pressure and pace of live-service development.

Operations & Logistics Advisor, 02/2020 to 11/2025
The Pickle Servant

- Helped run day-to-day operations for a small food business, including stock, production flow, logistics, and practical problem solving.
- Led a sustainability bottle-swap scheme that encouraged repeat customers and supported the business's reuse goals.
- Assisted with marketing, accounting, and planning, while providing trusted support to managers and team leaders.

Motorcycle Delivery Driver, 09/2022 to 02/2023
Hell Pizza

- Delivered orders safely and efficiently, while keeping a strong record of positive customer feedback.
- Helped with kitchen preparation and cleaning between deliveries, and was trusted with company motorcycles due to safe, reliable driving.

Kitchen Hand, 04/2022 to 08/2022
Olive Restaurant - Wellington

- Assisted chefs with prep, cleaning, and kitchen operations in a fast-paced restaurant environment.
- Maintained food safety, sanitation, and work-area standards while supporting team leaders during busy service.
